Re: MB Docket No. 04-233

Dear Ms. Dortch:

I am writing to you as the President and Founder of The Super Jake Foundation, a national 501c3 nonprofit foundation dedicated to funding research for pediatric cancer. We founded the organization three years ago in honor of my son, Jake, who died of cancer when he was just four years old.

Since our founding, we have been blessed to have a close working relationship with WTMX 101.9 FM The Mix. The Mix helps us to get the word out locally about The Super Jake Foundation, our local events and the need for more funding for pediatric cancer.

Each summer the station runs an interview with myself and my husband telling our son, Jake's, story as part of their support of the local children's hospital. The Mix also regularly airs PSAs to raise awareness for our Foundation's cause and to drive attendance to our local events.

In addition, in June, The Mix holds a local golf outing to support The Super Jake Foundation.

One of the station's "taglines" is "making a difference in Chicago" and that is certainly true. The station and its personnel are deeply committed and involved in the local community. The Mix and Bonneville are important members of the local community. They meet and exceed the needs of local organizations like The Super Jake Foundation and as such, we see no need for additional rules or reporting requirements that insert Federal oversight of the process of broadcasters serving the community.

Respectfully submitted,

Ann Fahey-Widman
President and Founder
The Super Jake Foundation
